5. Background: The current noise ordinance provisions relating to noise created by the operation of refuse collection does not limit the time of day when such activities may take place. The Lee County solid waste franchise agreement for Veolia contains time limitations, but such limitations are only applicable to solid waste and recyclable collections by that franchisee. There are other companies that collect recyclables from commercial properties located in the Town that have been conducting their collection activities as early as 5:00 a.m. and there have been complaints from some of the neighboring residential properties about the loud noises produced by these activities during such an early hour. This ordinance amendment will limit all non-residential collection to between the hours of 6:30 a.m. and 6:30 p.m. Residential collection is already limited by the provisions of the County's solid waste franchise agreement.

The Ordinance was introduced at the April 4, 2011 Town Council Meeting.
